COURSE NO.	PCC 15
COURSE NAME	Obstructive Sleep Apnea: Expanding the Dental Perspective
COURSE INSTRUCTOR	<p>Dr. Himija Karia</p> 
COURSE CO-ORDINATORS	<ol style="list-style-type: none"> 1. Dr. Himija Karia 7709454893 2. Dr. EdeintonArumugam 9841121575 3. Dr. EdeintonArumugam (Chief Coordinator) 4. Dr. S.R.Murugesan (Co-Faculty) 5. Dr. Nivethigaa (Workshop Coordinator)
ABOUT THE COURSE	<p>Obstructive sleep apnea (OSA) is a prevalent sleep disorder characterized by repetitive episodes of upper airway obstruction during sleep, leading to fragmented sleep pattern ultimately resulting in various systemic health consequences. India alone has an estimated 48 million cases of severe OSA. Untreated OSA increases the risk of serious conditions such as high blood pressure, heart disease, stroke, diabetes, and even cognitive issues like memory loss and depression. Additionally, it can contribute to chronic fatigue, affecting daily productivity and quality of life. Early diagnosis and treatment can help in reducing the long term morbidity.</p> <p>Course Description: This comprehensive course is designed for dental professionals looking to deepen their understanding of obstructive sleep apnea (OSA) and its critical role in patient care. The course focuses on the early recognition, screening and treatment of OSA, empowering dentists to incorporate sleep medicine into their practice.</p> <p>Participants will learn about the anatomy and pathophysiology of OSA, explore advanced screening techniques, and discover the latest dental interventions, such as oral appliance therapy, that can improve patients' sleep and overall health. Through case studies and hands-on workshops, attendees will develop the skills to</p>
