

HOST: IDA - Tamilnadu State Branch

 Chennai Trade Centre Nandambakkam, Chennai

📋 7th, 8th & 9th February 2025

COURSE NO.	PCC 3
COURSE NAME	PLATELET CONCENTRATES- BIOACTIVE BOOST
COURSE INSTRUCTOR	Dr. P.S.G. Prakash
COURSE CONDUCTOR	1. Dr. Anupama Tadepalli 2. Dr. A.M. Devapriya
	3. Dr. Priyanka K Cholan 4. Dr. Lakshmi Ramachandran
COURSE CO-ORDINATORS	Dr. Anupama Tadepalli
	Contact No.: 9677065517

HOST: IDA - Tamilnadu State Branch

Chennai Trade Centre
Nandambakkam, Chennai

📋 7th, 8th & 9th February 2025

About the course: Platelet concentrates are a rapidly evolving and promising field in dentistry, offering a wide range of therapeutic applications. This course will provide participants with a comprehensive overview of the use of solid and liquid formulations of platelet-rich fibrin in a variety of dental procedures. Through lectures, hands-on demonstrations and case studies, attendees will gain a deep understanding of the role of platelet concentrates in dental applications. Course objective: The objective of this course is to educate participants on the clinical applications of platelet-rich fibrin in dentistry, with a focus on enhancing tissue regeneration and wound healing. Course outline: Lecture : Introduction to the principles of platelet-rich fibrin, its preparation, and the underlying biological mechanisms that make it a valuable tool in dental application. Hands on demonstration: Technique of venipuncture, Preparation of solid and liquid platelet-rich fibrin, Sticky bone preparation. Clinical application: Case studies will be presented to illustrate the successful integration of platelet-rich fibrin in various procedures, such as socket preservation, periodontal regeneration, and soft tissue management. Course outcome: By the end of this course, participants will be able to: 1. Understand the fundamental biology of platelet-rich fibrin and its role in promoting angiogenesis, immune control, and wound healing 2. Demonstrate the technique of venipuncture 3. Preparation of solid & liquid platelet-rich fibrin; and sticky bone Participants will be equipped with the necessary knowledge and practical skills to effectitvely integrate this versarile regenerative te	ABOUT THE COURSE
