7<sup>th</sup>, 8<sup>th</sup> & 9<sup>th</sup> February 2025

<b>COURSE NO.</b>	<b>PCC 16</b>
<b>COURSE NAME</b>	<b>RESILIENT PULP EFFECTIVE PULP THERAPY METHODS</b>
<b>COURSE TYPE</b>	<b>LECTURE + HANDS ON</b>
<b>COURSE MENTOR</b>	<p>Dr. Daya Srinivasan. MDS</p> 
<b>COURSE CO-ORDINATOR</b>	<p>Dr. Daya Srinivasan Contact Number: 9884476385</p>
<b>ABOUT THE COURSE</b>	<p>This preconference course, "Resilient Pulp: Effective Pulp Therapy Methods," aims to empower dental professionals with the latest techniques in vital pulp therapy. As preserving vital pulp is essential for tooth longevity and overall patient health, this course will provide a comprehensive overview of evidence-based practices designed to enhance outcomes.</p> <p>Participants will delve into crucial topics such as the diagnostic criteria for pulp vitality, the indications for various treatment options, and detailed procedural guidelines. A focus on minimally invasive techniques will ensure that practitioners can promote pulp resilience while maximizing patient comfort and effectiveness.</p> <p>The course will feature interactive lectures, engaging case studies, and hands-on demonstrations that allow participants to apply their learning in real-world scenarios. Discussions will also cover emerging materials and technologies that can further improve the efficacy of pulp therapy.</p> <p>By the end of the session, attendees will have gained practical insights and skills to confidently implement effective pulp therapy methods in their practices. This course not only aims to improve clinical competencies but also to enhance the overall patient experience in dental care.</p> <p>Join us for this dynamic and informative course, and elevate your understanding of</p>
